DOB: 16-10-2004

Chennai, India

Motivated MERN Stack Developer with strong foundation in JavaScript, React, Node.js, and MongoDB. Skilled in building responsive web applications and REST APIs. Quick learner with problem-solving mindset, seeking an entry-level opportunity to contribute, grow technically, and deliver scalable solutions.

Projects

D2C E-commerce platform

Developed a MERN stack e-commerce platform using Tailwind CSS with role-based authentication, admin dashboard, product and stock management, cart, order workflow, and Razorpay integration. Built secure REST APIs with MongoDB and deployed on Vercel and Render for scalable performance.

- Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Razorpay API

Task Management Web Application

Developed a MERN stack task management dashboard with JWT-based authentication, enabling users to create, update, prioritize, and track tasks. Implemented RESTful APIs with MongoDB and built a responsive interface using React and Tailwind CSS, deployed on Vercel and Render.

- Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT Auth, REST API

Core Skills

Frontend: React.js, JavaScript, ES6, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST API, JWT Auth

Database: MongoDB, MySQL

Tools: Git, GitHub, Postman, Vercel

Education

Sri Muthukumaran Institute of Technology, Mangadu
MCA Computer Applications

Aug 2024 - Present

Govt Arts and Science College, Thiruvottiyur
BCA Computer Applications
GPA: 78%

July 2021 - May 2024

Languages

English, Tamil

Certificates

MERN Stack Development
SLA institute

Dec 2025 - Mar 2026

Additional

- Problem Solving skills
- Quick Learner
- Team Collaboration
- Debugging
